

Tourism Website Documentation

Header and Navigation

Fixed Header: The header stays visible at the top as users scroll down the page for easy access to navigation.

Logo: Displays the site branding ('TRAVEL') linked to the homepage.

Navigation Menu:

- Links to major sections: Home, About, Popular, and Explore.
- Responsive Design: Collapses into a toggle menu on smaller screens.
- Interactivity:
 - nav-toggle: Opens the navigation menu.
 - nav-close: Closes the navigation menu.
 - Smooth scrolling behavior ensures a polished user experience.

Blur Effect: Adds a subtle blur when scrolling for better focus on content (blur-header class).

Home Section

Hero Background: A visually appealing background image (home_bg) with a gradient shadow effect (home_shadow).

Welcome Message: A title and description introducing Zamboanga del Norte as a travel destination.

Call-to-Action Button: Encourages users to begin exploring ('Start Your Journey').

Featured Locations: Displayed as cards with:

- Dynamic image scaling on hover.
- Highlights destinations like Dipolog City and Dapitan City.

About Section

Overview: Introduces the joy of traveling in Zamboanga del Norte, emphasizing safety and enjoyment.

Image with Hover Effect: Enlarges the image on hover for an interactive feel.

Call-to-Action Button: Links to additional travel details or features.

Popular Section

Showcasing Attractions: Features popular sites such as Mt. Danao, Linabo Peak, and Aliguay Island.

Cards include:

- Images with hover scaling.
- Location tags with icons for easy identification.

Responsive Design: Cards adapt to fit different screen sizes, ensuring consistent user experience.

Explore Section

Immersive Background: Displays a scenic image (explore_img) to evoke wanderlust.

User Highlight: Includes a testimonial-style section featuring a traveler ('Amher Cosaine').

Content Focus: Encourages users to discover the serene beauty and comfort of exploring Zamboanga del Norte.

Join Section

Newsletter Signup:

- Input form for users to subscribe to updates.
- Emphasizes starting their journey with travel insights.

Interactive Image: Hover effects on accompanying visuals to maintain engagement.

Footer

Content Sections:

- About: Information on the site and travel offerings.
- Company: Links to FAQs, history, and testimonials.
- Contact: Support and inquiry options.
- Support: Links to privacy policies, terms, and payments.

Social Media Links:

- Icons for platforms like Facebook, Instagram, Twitter, and YouTube.
- Hover effects enhance usability.

Visual Design and Styling

Typography: Uses Google Fonts (Poppins and Montserrat) for modern, clean text presentation.

Color Palette:

- Dark background (body-color) for contrast.
- Bright text and highlights (title-color and text-color).

Spacing and Grid System: Uniform margins, padding, and grid layouts ensure responsive design and alignment.

JavaScript Features

Menu Interactions: Smooth toggling of navigation menu visibility (navToggle and navClose).

Scroll Effects: Adds header blur and background modifications for polished aesthetics.

Event Listeners: For navigation and hover-based interactions.

Responsive Design

Tailored for various screen sizes using CSS media queries:

- Adjustments for fonts, grid layouts, and section paddings.
- Fully functional mobile navigation.
